

Dunaway Pocket Square Fold

Here is a step-by-step illustration of how this "Dunaway Fold" is achieved:

Step 1: Lay your pocket square flat with the two top corners horizontal. Pinch the middle of the pocket square and pick it up.

Step 2: As you pick up the pocket square, tuck the sides in as in the diagram.

Step 3: With one hand firmly holding the pocket square, use your other hand to gently gather it closed.

Step 4: Now gracefully roll the top of the pocket square in the direction of the arrow.

Step 5: Carefully lift the bottom points up.

Step 6: Flatten the points.

Step 7: Carefully lift the bottom points up.
